Attachments: AG DW Spatial Data in PFAS Explorer - Issue Discussion_OGWDW comments_121919_v2.docx

Eric – See attached for an updated markup of Andy Gillespie’s options paper (“*AG DW Spatial Data in PFAS Explorer - Issue Discussion_OGWDW comments_121919_v2.docx*”) and see below for a draft transmittal note from Jennifer to Andy. The edits include additional input from Ryan, and Ron confirmed that Alex Porteous is focused on the first of the two “mapping” options he originally outlined.

Hi Jennifer – below is the draft pro and con document I started, tried to capture your points as you expressed them. For consideration, we can discuss in January.

Here is the link to the draft explorer in case you want a

Subject: RE: PFAS Dashboard

Colleagues – I am trying to capture the options for resolving the issue with showing UCMR3 data in the PFAS explorer.

Attached is a first draft of an options paper. I tried to capture what I understand of your views, but I am sure you can do it better. Please feel free to edit the boxes representing OWs views. I would plan on sharing this with the AAs and with Brett Doyle in advance of our discussion re: a decision on the topic.

I also attach a couple of screen shots showing the implications of the two options, for the case of SE PA. I used the EWG tool to map the points since we don't have any other data at the moment.

Comments welcome, it would be best if the options paper represented a collaborative effort between OW, ORD and OECA.

Thanks, Andy

Subject: PFAS Dashboard

Andy

Thank you for the discussion on Friday on the PFAS Dashboard and the remaining issues for which OGWDW is hoping for resolution. Most importantly, the current display of UCMR data by PWS zip code. From our conversation, it seems that there is at least agreement in principle as to how to address the other (non-zip-code) concerns and I've asked my staff to confirm this.

Regarding zip codes, as we discussed, the UCMR requires that zip codes be reported at the PWS level. My understanding

General points

Ex. 5 Deliberative Process (DP)

Specific examples

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

Finally, we sent a request to OW to schedule an AA-level briefing on the dashboard and it was scheduled right away. If you have difficulty with the current time/date, please let me know and I will ask Joe to work with OW to adjust.

Regards,
Jennifer
